Education

- 10.2009-12.2014 **Ph.D.** Evolutionary Genetics, University of Groningen, The Netherlands
Mentor: Leo W. Beukeboom, Bart A. Pannebakker, Louis van de Zande
Project: Genetic and evolutionary consequences of *Wolbachia*-induced parthenogenesis in the parasitoid wasp *Asobara*: sex determination and sexual decay
- 09.2006-07.2009 **M.S.** Evolutionary Ecology, *Summa cum laude*
Xishuangbanna Tropical Botanical Garden, Chinese Academy of Sciences
Mentor: Da-Rong Yang
Project: Coevolution between fig and fig wasps and reproductive success in three dioecious *Ficus* species in Xishuangbanna
- 09.2002-07.2006 **B.S.** Biological Science, *Summa cum laude*
Nanyang Normal University, China

Academic Employment

- 08.2020-current **NIH Senior postdoctoral research associate**, Department of Molecular Biosciences, The University of Kansas, Lawrence, KS, USA
Mentor: Robert Unckless
Project: Evolution and genomics of sex chromosome meiotic drive in *Drosophila affinis*
- 06.2018-07.2020 **NIH Postdoctoral research associate**, Department of Biology, Amherst College, MA, USA
Mentor: Michael Hood
Project: Comparative genomics and degeneration of mating-type chromosomes in the anther smut fungi
- 08.2018-10.2018 **Visiting scholar**, Department Ecologie Systematics and Evolution, Université of Paris-Sud, Orsay, France
Host: Tatiana Giraud
- 03.2018-05.2018 (Informal) **visiting scholar**, Department of Biology, University of Indiana, IN, USA
Host: Lynda Delph, Curt Lively
- 08.2014-02.2018 **SNSF Postdoctoral fellow**, Department of Ecology and Evolution, University of Lausanne, Switzerland
Mentor: Nicolas Perrin, John Pannell
Project: Evolutionary genomics of homomorphic sex chromosomes in *Ranidae* frogs and *Mercurialis* plants
- 08.2014-01.2018 **Teaching assistant**, Department of Ecology and Evolution University of Lausanne, Switzerland

Assistant in courses 'Molecular Genetics', 'Zoology', master thesis evaluation committee

- 01.2010-01.2014 **Graduate teaching assistant**, University of Groningen, the Netherlands
Teaching assistant in course 'Evolutionary Genetics', supervising students' projects
- 07.2009-08.2009 **Research associate**, Chinese Academy of Science, Xishuangbanna, China
In charge of laboratory sections and field work of Ecology and Evolution Group
- 09.2003-08.2005 **Undergraduate teaching assistant**, Nanyang Normal University, China
Teaching assistant in 'Cell Biology', 'Biochemistry', 'Zoology', 'Plant Biology',
in charge of practicals: preparing, illustration of experiments and evaluation of exams

Honors, Awards, Fellowships and grants experience

- 09.2019 Royal Society University Research Fellowship grant proposal, **£725,397** (proposal was shortlisted but not made it for funding). I wrote the proposal **by myself**.
- 05.2018 Travel award from Society for the Study of Evolution, **\$500**
- 03.2018 Postdoc fellowship proposal 'Guppy Young Y' was awarded the 'Marie Sklodowska-Curie Actions Seal of Excellence' (but not made it for funding in the end). I wrote the proposal **by myself**.
- 2013 Dutch Uyttenboogaart-Eliassen Foundation, **€500**
- 2009-2014 PhD proposal 'Evolutionary Genetics of sex determination in *Asobara* parasitoid wasps', Ubbo Emmius faculty fellowship, **€80,000**, University of Groningen, The Netherlands
- 2009 Best master thesis award of DiAo, **¥2,000**, Chinese Academy of Sciences, China
- 2009 Outstanding Graduate in Xishuangbanna Tropical Botanical Garden, CAS (**Top 4%**), Chinese Academy of Sciences, China
- 2002-2006 First-Class Departmental Scholarship for 4 years, in total **¥4,000**
- 2006 Outstanding Graduate of Nanyang Normal University (**Top 1%**), Nanyang Normal University, China
- 2004 Second-Class National Scholarship for Excellent Study (**Top 0.1%**), **¥5,000**, Nanyang Normal University, China

In preparation

- 25). **W-J Ma***, RC Rodríguez de la Vega*, F Carpentier, ME Hood, FE Hartmann, T Giraud, ME Hood. Hemizygous genes in the non-recombining regions of sex-related chromosomes arose mostly by gene gains rather than allelic copy loss. Target journal: **Proceedings of the National Academy of Sciences (IF=9.580)**
- 24). **W-J Ma**, P Veltsos, R Sermier, M Toups, N Rodrigues, N Perrin. Y chromosome differentiation masculinizes gene expression on sex chromosomes and correlates with faster male development. Target journal: **Nature Ecology and Evolution (IF=10.969)**

Preprint

- 23). **W-J Ma**, BA Pannebakker, X Li, E Geyverink, SY Anvar, P Veltsos, T Schwander, L van de Zande, LW

Beukeboom. A single, major QTL is associated with decay of female sexual traits in an asexual parasitoid wasp.

Target journal: **Molecular Ecology** (IF=6.131)

(https://www.dropbox.com/s/cm0hqid8zgakrez/QTL_preprint_WMa.pdf?dl=0)

Publications (total citations until 09.2020: 269, h-index: 10, i10-index: 10)

- 22). **W-J Ma**, F Carpentier, T Giraud, M Hood. (2020). Differential gene expression is associated with degeneration of mating-type chromosomes in the absence of sexual antagonism. doi: <https://doi.org/10.1093/gbe/evaa028> **Genome Biology and Evolution** 12: 234-258. (IF=3.726, citations=1)
- 21). FE Hartmann*, **W-J Ma***. (2020). Digest: Climate plays marginal role for homomorphic sex chromosome differentiation in common frogs. *Equal contribution. doi: <https://onlinelibrary.wiley.com/doi/10.1111/evo.13936> **Evolution** 74: 690-693. (IF=4.201).

Invited talks

- 09.2020 **EEB Genetics seminar**. “The evolution and genomics of sex chromosomes and sex determination”, Department of Ecology & Evolutionary Biology and Department of Molecular Bioscience, University of Kansas, Lawrence, USA
- 06.2020 **Evolutionary Biology Group seminar**. “The evolution and genomics of sex chromosomes and sex determination”, Department of Biology, University of Konstanz, Konstanz, Germany
- 02.2020 **Departmental seminar**. “The evolution and genomics of sex chromosomes and sex determination”, Department of Biology, George Mason University, Fairfax, USA
- 02.2020 **Departmental seminar**. “The evolution and genomics of sex chromosomes and sex determination”, Department of Biological Sciences, University of Arkansas, Fayetteville, USA
- 01.2020 **Departmental seminar**. “The evolution and genomics of sex chromosomes and sex determination”, School of Biological Sciences, Illinois State University, Normal, USA
- 01.2020 **Conference speaker**. Invited but declined. Symposium ‘Emerging frontiers in sex chromosome evolution’, 9th World Congress of Herpetology, Dunedin, New Zealand.
- 01.2020 **Conference speaker**. ‘The International Plant and Animal Genome (PAG) conference’, ‘Sex Chromosome and Sex Determination’ workshop, San Diego, CA, USA.
- 08.2019 **Departmental seminar**. “The evolution and genomics of sex chromosomes and sex determination”, School of Biological Sciences, University of Aberdeen, UK
- 06.2019 **Conference speaker**. ‘Y-chromosome differentiation is associated with developmental transcriptome masculinization and earlier male gonad completion in common frogs’, Evolution 2019, Providence, Rhode Island
- 05.2019 **Departmental seminar**. “The evolution and genomics of sex chromosomes and sex determination”, Institute of Integrative Biology, University of Liverpool, UK

- 04.2019 **Departmental seminar.** “The evolution and genomics of sex chromosomes and sex determination”, Milner Center for Evolution, University of Bath, UK
- 01.2019 **Conference speaker.** Invited but declined. ‘The International Plant and Animal Genome (PAG) Conference’, San Diego, CA, USA.
- 12.2018 **Departmental seminar.** “Evolution of homomorphic sex chromosomes, sex-biased gene expression in the common frogs”, Seminar for Department of Biology, Amherst College, MA, USA
- 09.2018 **Departmental seminar.** “Evolution of homomorphic sex chromosomes, sex-biased gene expression in the common frogs”, Seminar for Department of Genetic and Ecology Evolution, Université Paris-Sud, Orsay, France
- 06.2016 **Departmental seminar.** “Evolution of sex determination and sex chromosome”, Institutional external seminar, Chinese Academy of Sciences, Xishuangbanna, China
- 08.2015 **Conference speaker.** “Sex determination and sexual decay in a parasitoid with *Wolbachia*-induced parthenogenesis”, ‘Nöthiger insect sex determination’ workshop, University of Lausanne, Lausanne, Switzerland
- 07.2014 **Workshop speaker.** “Evolutionary and genetic consequences of *Wolbachia*-induced parthenogenesis in the parasitoid *Asobara*”, ‘Evolution of asexual genome’ workshop, University of Lausanne, Lausanne, Switzerland
- 10.2013 **Departmental seminar.** “Genetic basis of decayed sexual traits in a parasitoid wasp”, Laboratory of Genetics seminar, Wageningen University, Wageningen, the Netherlands
- 02.2010 **Departmental seminar.** “Sex determining mechanisms and the ecological consequences in the *Asobara* genus (Hymenoptera: Braconidae)”, seminar, Leiden, The Netherlands

Conference presentations

- 01.2020 **Talk** “Differential gene expression between fungal mating types is associated with sequence degeneration”, PAG XVIII, San Diego, CA, USA
- 08.2019 **Poster** “Differential gene expression between mating types is associated with sequence degeneration in the absence of sexual antagonism”, ESEB, Turku, Finland
- 06.2019 **Poster** “Differential gene expression is associated with degeneration of mating-type chromosomes in the absence of sexual antagonism”, Evolution, Providence, USA
- 06.2019 **Talk** “Y-chromosome differentiation is associated with developmental transcriptome masculinization and earlier male gonad completion in common frogs”, Evolution 2019, Providence, Rhode Island, USA
- 08.2018 **Poster** “Y chromosome differentiation masculinises gene expression on sex chromosomes and correlates with faster male development”, Joint meeting of ESEB and Evolution, Montpellier, France
- 08.2017 **Poster** “Evolution and temporal dynamics of sex-biased gene expressions in the common frog with a proto-sex chromosome”, European Society for Evolutionary Biology, Groningen, The Netherlands
- 01.2017 **Talk** “Is a novel reproductive trait conferring high siring success associated with postzygotic isolation in an annual plant”, PoPGroup meeting, Cambridge, UK

- 06.2016 **Talk** "Characterization of Y chromosomes of varying differentiation levels by haploid genome sequencing in the common frog", Evolution of sex det. workshop, La Sage, Switzerland
- 02.2016 **Poster** "Sex-chromosome differentiation covaries with polymorphism at the candidate sex-determination gene *Dmrt1* in common frogs", Swiss Biology Meeting, Lausanne, Switzerland
- 12.2015 **Talk** "*Dmrt1* polymorphism covaries with sex-differentiation patterns in the common frog", PopGroup 49 meeting, University of Edinburgh, Edinburgh, Scotland
- 08.2015 **Poster** "Polymorphism in the candidate sex determination gene *Dmrt1* covaries with sex-chromosome differentiation patterns in the common frog", European Society for Evolutionary Biology, Lausanne, Switzerland
- 07.2014 **Talk** "Evolutionary and genetic consequences of *Wolbachia*-induced parthenogenesis in the parasitoid wasp *Asobara*, 'Evolution of asexual genome' workshop, University of Lausanne, Lausanne, Switzerland
- 08.2013 **Poster** "Genetic basis of sexual traits decay in a parasitoid wasp with endosymbiont-induced parthenogenesis", European Society for Evolutionary Biology, Lisbon, Portugal
- 06.2013 **Talk** "Genetics of decayed sexual traits in a parasitoid wasp with endosymbiont-induced parthenogenesis", Insect sex determination workshop, Gif-sur-Yvette, Paris, France
- 02.2013 **Talk** "Genetics of vestigialized sexual traits in an asexual wasp", Netherlands Annual Ecology meeting, Lunteren, The Netherlands
- 12.2012 **Talk** "Genetics of decayed sexual traits in an asexual wasp", Entomologen Dag, Ede, The Netherlands
- 12.2011 **Talk** "How is sex determined in the parasitoid wasp genus *Asobara*", Entomologen Dag, Ede, the Netherlands
- 11.2011 **Talk** "Experimental test of sex determination in solitary parasitoid genus *Asobara*", NEV herfstvergadering, Groningen, The Netherlands
- 10.2011 **Poster** "*Absence of complementary sex determination in the parasitoid wasp genus Asobara*", Sixth International Symposium on Molecular Insect Science, Amsterdam, The Netherlands
- 10.2011 **Poster** "No Complementary Sex Determination in the parasitoid wasp genus *Asobara* (Hymenoptera: Braconidae)", European workshop on sex determination in insects, Amsterdam, The Netherlands
- 06.2011 **Poster** "Sex determining mechanisms in the *Asobara* genus", Genetics, Epigenetics and Evolution of Sex Chromosomes, Paris, France
- 11.2010 **Talk** "Sex determining mechanisms in the *Asobara* genus (Hymenoptera: Braconidae)", Meeting of the Insect Parasitoid Special Interest Group of the Royal Entomological Society, University of York, York, UK
- 11.2010 **Poster** "Sex determining mechanisms in the *Asobara* genus (Hymenoptera: Braconidae)", Plant-Insect interaction workshop, Wageningen, The Netherlands
- 11.2007 **Talk** "Strategy of female flower resource consumption in dioecious fig species by fig wasps", conference of "Biodiversity--Challenges to the New Century", Jinghong, China

Workshops

- 04.2018 “*De novo* transcriptome assembly”, University of Indiana, USA
- 06.2016 “Evolution of sex determination”, La Sage, Switzerland
- 08.2015 “Nöthiger insect sex determination”, University of Lausanne, Lausanne, Switzerland
- 07.2014 “Evolution of asexual genome”, University of Lausanne, Lausanne, Switzerland
- 06.2014 “NGS genome & transcriptome assembly and analysis”, University of Fribourg, Fribourg, Switzerland
- 11.2013 “Writing a Grant Proposal”, University of Groningen, Groningen, The Netherlands
- 10.2013 “RNAseq data analysis workshop”, University of Groningen, Groningen, The Netherlands
- 08.2013 “MGC Next Generation Sequencing data analysis”, Medical Genetics Centre South-West Netherlands, Leiden, The Netherlands
- 06.2013 “Nöthiger Insect sex determination”, Gif-sur-Yvette, Paris, France
- 10.2011 “Nöthiger Insect sex determination”, Amsterdam, The Netherlands

Teaching assistant and mentoring activities

- 09.2018 **PhD mid-thesis evaluation, ‘Evolution of mating-type chromosomes in the anther-smut fungi’**, University of Paris-Sud, Orsay, France
- Read and comment on the PhD mid-thesis document;
 - Meet with the PhD candidate to discuss the comments for improvement;
 - Attend the thesis talk and give feedbacks

- 09-10.2017 **Teaching assistant, 'Molecular Genetics', Master course**, University of Lausanne, Switzerland
- Involve in organizing and preparing the course related web lab reagents;
 - Attend the web lab practical and help students troubleshooting for DNA extraction, gel running, PCR, PCR purification, send out for Sanger sequencing and interpret results;
 - Prepare R codes for Population Genetics analysis and attend the practical dry lab course with students and troubleshoot with R codes running
- 09-10.2016 **Teaching assistant, 'Molecular Genetics', Master course**, University of Lausanne, Switzerland
- Involve in organizing and preparing the course related web lab reagents;
 - Attend the web lab practical and help students troubleshooting for DNA extraction, gel running, PCR, PCR purification, send out for Sanger sequencing and interpret results;
 - Prepare R codes for Population Genetics analysis and attend the practical dry lab course with students and troubleshoot with R codes running
- 02-06.2016 **Teaching assistant, 'Zoology', Undergraduate course**, University of Lausanne, Switzerland
- Prepare section 'Aquatic Insects' lab setting, taking students to the close by creek in the field to collect aquatic insects and back to the lab to dissect and understand the biological traits;
 - Prepare section 'Bird' lab setting and practiced bird dissection and anatomy, attend the Practical with students and help students troubleshoot bird dissection and bird anatomy/physiological traits;
 - Prepare section 'Fish' lab setting and practiced fish dissection and anatomy, attend the practical with students and help students troubleshoot fish dissection and fish anatomy/physiological traits.
- 09-10.2015 **Teaching assistant, 'Molecular Genetics', Master course**, University of Lausanne, Switzerland
- Involve in organizing and preparing the course related web lab reagents;
 - Attend the web lab practical and help students troubleshooting for DNA extraction, gel running, PCR, PCR purification, send out for Sanger sequencing and interpret results;
 - Prepare R codes for Population Genetics analysis and attend the practical dry lab course with students and troubleshoot with R codes running
- 08-09.2015 **Supervisor of internship undergraduate student, 6 weeks**, University of Lausanne, Switzerland
- Supervise the student project on 'Time series of sex determination gene expression along frog development', lab techniques like RNA extraction and qPCR, interpret the results, comments on the report.
- 07-08.2015 **Supervisor of internship undergraduate student, 8 weeks**, University of Lausanne, Switzerland
- Supervise the student project on 'Common garden experiment on polymorphism of male flower inflorescence among various hexaploidy populations of *Mercurialis annua*', common garden growing plants, measure various plant phenotypical traits, lab techniques like DNA extraction and PCR, running gels, and comment on the report.
- 02-06.2015 **Teaching assistant, 'Zoology', Undergraduate course**, University of Lausanne, Switzerland
- Prepare section 'Aquatic Invertebrate' lab setting, taking students to the close by creek in the field to collect aquatic insects and back to the lab to dissect and understand the biological traits;
 - Prepare section 'Crustacean' lab setting, taking students to the close by creek in the field to collect crustaceans and back to the lab to dissect and understand the biological traits;
 - Prepare section 'Fish' lab setting and practiced fish dissection and anatomy, attend the Practical with students and help them troubleshoot fish dissection, fish anatomy/physiological traits.
- 10.2014-03.2016 **Co-supervisor of master project, 1.5 year**, University of Lausanne, Switzerland
- Design the master project together with two other co-supervisors on 'Sex chromosome turnovers among various Ranidea frog species using RAD-seq approach', lab technique extraction of DNA, RAD library preparation, data analysis and comments on the master report. This leads to a high impact publication, see publication list #7.

- 09-10.2014 **Teaching assistant, “Molecular Genetics”, Master course**, University of Lausanne, Switzerland
- Involve in organizing and preparing the course related web lab reagents;
 - Attend the web lab practical and help students troubleshooting for DNA extraction, gel running, PCR, PCR purification, send out for Sanger sequencing and interpret results;
 - Prepare R codes for Population Genetics analysis and attend the practical dry lab course with students and troubleshoot with R codes running
- 02-06.2014 **Supervisor of undergraduate student from NHL Hogeschool**, 4 months, Leeuwarden, The Netherlands
- Design the project on ‘Investigation of splicing variants of *doubtlesex* in *Asobara japonica* wasp with sexual and asexual populations’, teach web lab DNA and RNA extraction, PCR, RT-PCR, running gels, purification of PCR products, Sanger sequencing results analysis, comment on report.
- 02.2014 **Supervisor of two Masters students** during the course ‘Animals meet Microbes’, The Netherlands
- Pick up several papers related to the course topic, meet with students to discuss the key results, present the papers and join the group discussions during the course.
- 09.2013-01.2014 **Supervisor of one Undergraduate student** from NHL Hogeschool, 5 months, Leeuwarden, The Netherlands
- Design the project on ‘Evaluate the SNP markers and remove false positive markers’, teach web lab, DNA extraction, PCR, running gels, purification of PCR products, Sanger sequencing results analysis, comment on the report.
- 02-03.2013 **Supervisor of two Undergraduate students**, ‘Evolutionary Genetic research’ course, 6 weeks, University of Groningen, The Netherlands
- Design a small student project ‘Investigation on mating success of introgressed sex-asex wasp offspring’, setting up the wasp cultures, supervise the students to perform the experiment, Supervise students on presenting the results and comment on their report.
- 02-03.2011 **Supervisor of two Undergraduate students**, ‘Evolutionary Genetic research’ course, 6 weeks, University of Groningen, The Netherlands
- Design a small student project ‘How do founder number and competition affect their offspring sex, ratio allocation’, setting up the wasp cultures, supervise the students to perform the experiment, supervise students on presenting the results and comment on their report.

Academic organization and services

- 06.2020- **Member of Journal of Evolutionary Biology Advisory Group**, European Society of Evolutionary Biology
- 08.2019 Organize **‘Open Symposium’ sub-theme ‘Genome Evolution’**, ESEB 2019, University of Turku, Turku, Finland
- 03.2017 **Member of PhD-Postdoc search committee** for an Assistant/Associate Professor hire, University of Lausanne, Department of Ecology and Evolution, Switzerland
- 08.2015 **Member of organizing staff**, ESEB 2015, University of Lausanne, Switzerland
- 10.2014-07.2016 **Journal club discussion founder and organizer**, three groups wide, once per month University of Lausanne, Switzerland
- 10.2014-09.2016 **Topic group seminar organizer**, ‘*Reproductive System Dynamics*’, University of Lausanne, Switzerland
- 10.2012-10.2013 **Institute PhD colloquia committee member**, organizing monthly-based institute colloquia in Evolution and Ecology, University of Groningen, The Netherlands

- 02.2013 **Conference section convener**, “Evolutionary Ecology: Genetics of Adaptation to Environmental Shift & Species interactions”, Netherlands Annual Ecology meeting (NAEM), Lunteren, The Netherlands
- 07.2006 **Member of organizing staff**, 'the 7th international fig-fig wasp symposium', Chinese Academy of Sciences, Xishuangbanna, China
